

FAQ:

### **Can I use my own bow and arrows?**

During structured classes, participants are required to use the provided bows and arrows. This is because we are teaching participants proper techniques and forms to compete in NASP regulated competitions.

During open shooting times (dates TBD) at our outdoor archery range, participants can use their own bows. 30inch NASP regulated Aluminum arrows will be provided during open range shooting. (Completion date TBD)

### **Are parents/guardians allowed to stay and observe the class?**

Yes! We kindly ask that you remain in the viewing area towards the back of the range. Additionally, there is a playground near the range that is always accessible to park guests.

### **Where is the archery range?**

Our archery range is currently located in the small event room. For the first couple of sessions, the range will be indoors with the range while our outdoor archery range is still under construction.
